Nursing Care

Countryside Christian Community offers nursing services in private or semi-private room accommodations. Services include daily assistance with activities of daily living (dressing, bathing, grooming, etc.), medical services by either licensed or certified staff, three balanced meals, administration of medications and medical treatments, and supervision of other medical needs. A host of rehabilitation services such as physical, occupational, and speech therapy are available to foster improved physical functioning. Medicare and Medicaid coverage is available based on the financial and medical criteria of these respective programs. Continued residency in nursing care is possible if the resident is in need of the medical services of a licensed long-term care facility.

Several room sizes and features may be available and residents may bring their own familiar furnishings and personal items as may be limited by available space and current regulations. Living at Countryside Christian Community offers a family-like environment through your participation in the social, recreational, and spiritual life of the campus community. Personal laundry services are included as well as a host of recreational and social programs. Regular off-campus shopping trips and other excursions are available to enrich the life of those residents able to travel off campus.

All rooms are heated and air conditioned and most include either a private or shared half bath. A central bathing room is used with staff support for private bathing. The campus includes an activity room, chapel, multipurpose area, and dining room which are used for recreational, social, spiritual, and educational programs.

Numerous outside groups provide entertainment, spiritual, or musical programs.

Most of these events are open to all residents and families illustrating the small family atmosphere evident among all residents and staff at Countryside Christian Community.

Countryside Christian Community, a ministry of the United Christian Church, is committed to serving older adults according to the Biblical responsibility found in Matthew 25:40. Services are provided to all residents without regard to age, race, color, national origin, ancestry, physical handicap or disability.

Residency Application

All persons interested in residency at CCC are required to complete an application form and the resident or family should tour the community. Acceptance for residency is based upon the ability of CCC to meet your medical and service needs and your ability to cover the cost of those needed services. Certain financial qualifications apply which are determined by age and expected length of stay. Though immediate occupancy may not always be possible, we do utilize waiting lists which allow chronological priority based on the date of acceptance of your application. A non-refundable application fee of \$30 applies to the Standard Waiting List and a deposit of \$2,000 applies to the Priority Waiting List.

Room Plan

The following diagrams provide examples of some room accommodations. The opportunity to select a specific type of room is dependent upon availability.
